[1. Verse:]

You call yourself a lady  
With innocent eyes  
But your mind drive's me crazy  
A devil in disguise  
Burnin' nights of passion  
Lasting from dusk till dawn  
Falling in and out of romance  
Forever on and on

[Bridge:]

The heart of the moment's hiding your cold  
Hearted lies  
Inordinate torment  
A waste of time

[Chorus:]

Cold heaven  
Feels like hell  
You're heart's like a stone /  
[2nd:] You drive me insane  
Cold heaven  
Nothing more to tell  
Better leave you alone /  
[2nd:] Love's not a game

[2. Verse:]

I used to be your romeo  
Your master of sin  
But you behave like a gambler  
Playing games you can't win  
Extinguish the fire  
Been blinded by the flame  
But there's no more desire  
Don't want to feel your pain
