We are the fallen ones  
Begin the resistance  
The moon has changed day into darkness  
As we are kissed by funeral winds  
Marching toward the horizon  
In fragmentic grim atmospheres  
When the mysterious touch of darkness whispers  
And hidden we will spread our wings  
(So) may the night carry our minds to revenge  
(We) seeking the path to end up in glory  
In the shimmering and burning firmament  
Summoned we stand with dying feelings in our hearts  
Prepared to start the dance of pure violence  
Frozen silhouettes, beyond thy firmament, awaits those  
who cannot win  
Across the ocean of clouds we arise like a storm of  
everflowing tears  
Preludium of the forsaken, the tragical horizon of  
peace

Oh crimson beauty - dark sculptured entity  
Embraced in silence - eternal apathy  
Oh crimson beauty - fortress to bury me  
Welcome my glory - Angels of jealousy

So outside the gate we stand to enter once again the  
halls of false eternity  
A supreme shimmering spectrum offers, tormented  
cosmic chaos  
Enchanted symphonies of dawn lurk beyond, thy  
profane cryptic soulentrance  
Thou darkest dreams an astral solution  
Welcome rebellion the nocturnal resistance

Oh crimson beauty - sponsored so heavenly  
Night's protecting me - of angelic apathy  
Oh crimson beauty - I'm introducing me  
Create obscurity - Heaven thy destiny

Seduced in solitary dreams in harmless romantic  
forced whispers  
Return to the pure sound of innocence the power of the

night  
Oh solution  
The second storm rebellion, the profane resistance  
This time thy delirious Heaven shall be mine forced  
gentle to kiss my profane mind  
And all stars shall shine on velvet streamed illusions to  
the glimmering blaze of glory  
Look at the Heaven, the angelic forsaken sky of  
bitterness  
Come forth, far beyond, to the astral grave  
(To the abyss millennium asylum of peaceful tyranny)

Oh crimson beauty - of sculptured memory  
Forsaken centuries - your ancient symphonies  
Oh supreme Angels - of tortured agony  
I'll bury peace - for perfect harmony
