### "For The Day Will Come"

Visit "[For The Day Will Come](#)" on MotoLyrics.com

For the day will come...upon emblazoned red seas  
For the day will come...bearing plague and disease  
For the day will come...when nature reclaims  
For the day will come...enwreathed in flames

For the day will come...with suffering replete  
For the day will come...with the cycle complete  
For the day will come...for all to lie in their graves  
For the day will come...mankind is erased

For the day will come...with horizons afire  
For the day will come...no more

A world forsaken long forgotten...not even a memory
