I'm so tired now
I'm so tired I'm going to sleep
I'm so tired
I'll take some pills and fall

Then I will dream something about you and me
And I'll sleep all day
You get me now?

I'm so tired now
I'm so tired I'm going to sleep
I'm so tired
I'll take some pills and fall
Then I will dream something about you and me
And I'll sleep all night long
Till the sunshine comes out

And I'll be thinking of me instead of thinking of you all
nigh long
Oh, oh

I'm so tired now
I'm so tired I'm gonna sleep
You're so tired
You look so lovely and so sweet and simple
You're with me
And I'll stay beside you
Till the sunshine comes through

And I'll be thinking of me instead of thinking of you all
nigh long
Oh, oh
