In this sacred grave  
Where gods die  
An eventide kingdom  
Brightly shines

Constellations solemn throne  
Interstellar celestial dome  
The universe within it's branches  
A vestige born n blood  
Tree fallen to shadow  
Roots our mortal thread  
In dream or death  
The origin of echoes spirals out

Sea of stars  
Glimmering moon  
Shimmering black  
A mirror pool  
Depths to darkness  
Days journey  
Into dream  
Earthbound surrender  
The golden city sleeps  
Vespertine

O wanderers  
Enter the labyrinth  
Ike moth to flame  
The silver garden weeps  
Weeps it's nectar  
Leaves and petals close  
Dawn awaits the dew  
In servitude  
To sun and rain  
A mockery of faith  
From across the darkness  
Wave upon waveform  
Overlap and combine  
Inter written  
Through space and time
