Nimbus precession  
A looming tether  
Rolling shadows  
Billowing splendor  
Empyrean expanse  
Of arcane specter

Emblazoned horizon  
The great central fire  
Sunsets ardent skies  
Of dying ember

Eidolon aglow  
Heavenly Resonant  
Deathless, ethereal  
Resounding descent

Solar passage  
Far and wide  
Reaching out  
Fills the sky

Emblazoned horizon  
Sunsets ardent skies  
O majesty in motion  
Sinking spectral sky  
This burial dirge

Twilight Amaranthine  
Of aeons illuminant  
Wreathed in mortal sorrow  
Shadows fall to dusk  
Lingering sunbeams  
Splinter through trees  
Shadows fall

O majesty in motion  
Kneel before the crimson king  
Host across the esquiline
