

At All Cost "The Formula"

Visit "[The Formula](#)" on MotoLyrics.com

Let me set the formula for a utopia, shattered dreams
and bourgeoisie schemes leave classes to up-rise.
Take a theory raise awareness, class-consciousness,
then arm for the coup d'etat, strikes, and for the
resistance.

Don't let your fears stray the goal.

The present is not what we perceived it to be, current
culture will not thrive through this time.

Release me from this binding exponential downward
spiral.

Everything we say we need serves to lock us in.

Praise leader's words, then return to the fight, and the
strikes, until you have won it all.

Then rebuild by learning from previous mistakes, keep
history close to your heart and your mind.

And never forget to stand against all opposition, and
base a society from this one thing, it's...

Freedom.

Raise a voice for a change, stay up way up, for your
own cause, it's better now than never so.
