If our weakness comes out once again, it will be  
another win to them; it  
Will mean the death of our movement. My mind, says,  
it's better to know  
Than eat lies. Why would you die without a fight to  
change the world, and  
Shape your mind? To end all your ignorance right now,  
turn this world  
Around; you can change your rights now. it's time to  
decide will you sit  
Back and let this die or could you defend your rights  
until the end of your  
Life. If my thoughts and your dreams will come  
tomorrow as for now I can  
Hope that you will see the barriers between your life  
and the freedom  
Uncompromised by the fear and now a promise that  
we'll bring change.
