The moonlight glowed from your eyes
The air we breathe this final night
The look I see in your eyes
Tears forming on the outsides
The feel of your hand in mine
Don't be afraid to say goodbye

The years have past so quickly
Time has moved so fast I can't breathe
The years have past so quickly
Time has moved so fast its ok to leave
So don't be afraid to say goodbye
I'll see you on the otherside

It doesn't matter
Just walk away
Hearts broken
Lives shattered

3 years have past theres a knock on my door
I open up and see you standing there
Theres no moonlight in your eyes this night
And now you realize your out of time
So walk away don't turn around
I don't wanna see you in my life anymore
