I close my eyes not to fall asleep
But to think of you my baby
I wonder what you did today
What you wore, what you ate

I think of the day we'll finally meet
Will it be sunny or rainy
Will I see you first or will you see me

Will we know at first sight
Does that type of love still exist
Between me and you it would be possible
Love is magic love is home

I long for your touch, will you hold my hand?
Pull me close and feel my warmth
I'll hold you and kiss you all nite
Till we fall asleep in each others arms

Not knowing when this day will come
Is killing me inside
Hoping for it to come soon
So we can start our lives

Together and forever for all time (x4)

I close my eyes not to fall asleep
But to think of you my baby
I wonder what you did today
Did you think of me?
