(Day one) stuck in a prison of illusions
Got my hands in someone else's chains
(Day two) it's so fake and empty outside
Need to find the pureness of a life
(Day three) soul inside gotta grow otherwise I'm just a
system's whore
(Day four) come I'll take you to a place where we all
become one

All I want is get rid of the system
Rid of the system (get rid of)

All I want is get rid of the system
(Get rid of the system right now)

(Day four) need to come back to the middle Get your
balance and your own
Space

(Day five) think we need a resolution find yourself
before it's too late
(Day six) fuckin' all over our nature 'till the time that
mother earth dies
(Last day) come I'll take you to a place where we all
become one

All I want is get rid of the system
Rid of the system (get rid of)

I can't take it no more
I can't take it no more
I can't take it no more
I can't take it no more
