Flip back through the book of my life,  
See a page and i close my eyes,  
Don't wanna know what you did last night,  
I must be blind,

I did the best that i could do,  
To be a part of your damn life,  
Maybe i was not good enough,  
Maybe your too blind,

If you ever knew what i really feel for you,  
You wouldn't break my heart in two,  
No,  
Now its too late,

Too bad you never said how much you care,  
Too bad you not acknowledge i was there,  
I know,  
You know,  
It was there,  
Now its too late it's the end,  
Goodbye my friend,

Never thought you could be so bold,  
So many things we left untold,  
I dont wanna fight no more,  
For your time,

Who the hell do you think you are,  
A master bee or superstar,  
i dont ever wanna see your page again,  
Oh ooh,

If you ever knew what i really feel for you,  
You wouldn't break my heart in two,  
No,  
Now its too late,  
Too bad you never said how much you care,  
Too bad you not acknowledge i was there,  
I know,  
You know,  
It was there,

Now its too late it's the end,  
Goodbye my friend,  
Oh,

Yaaay Yaaay Yaaay Yaaay,  
Now it's too late it's the end,  
Goodbye my friend,

Sometimes i just think about,  
Think about,  
How it would be if you were mine,  
I dont know what to do,  
What to do,  
Be mine,  
Be mine,  
Mine,  
Miiine,

Too bad you never said how much you care,  
Too bad you not acknowledge i was there,  
I know,  
You know,  
It was there,  
Now it's too late it's the end,  
Goodbye my friend,

Too bad you never said how much you care,  
Too bad you not acknowledge i was there,  
I know,  
You know,  
It was there,  
Now it's too late it's the end,  
Goodbye my friend,  
Oh,
