Take my hand  
It'll be alright  
We'll get drunk on each other ohhhh  
It might take us a long long time  
To ever understand why ohhhh

Chorus:

I can't take this all on on my own  
Those seven rainbows we saw on our way home  
Well they said  
It's okay, it's alright  
We're not ones to give advice  
But just take care of your sons and daughters

You say stay and I say just let me go  
We can't fight for an answer  
If I could I would sing your praise  
What cures and breaks our cancer ohhhh

(Chorus)

It's alright, yeah, yeah...

It's okay, it's alright  
We're not ones to give advice  
Just take care of your sons and daughters (x3)
