I found a rope and a rubber glove  
You found some pretty stones and they had holes so  
you could tie them together  
Tie them together  
Tie them together

And when we spoke there was silence  
Cos there's no need to make a sound when you've got  
Smiles instead  
Smiles instead

Smiles instead

Go to dungeness  
Let's go to dungeness  
Let's go to dungeness  
Let's go to dungeness

No tall latte in a rusty shed  
Just shots of light and broken bike to stimulate your  
busy head  
In dungeness  
In dungeness  
Try dungeness
