"Get it back"

Visit "[Get it back](#)" on MotoLyrics.com

don't want you to be
want you to be like one of these
souls that never sleep
'cause it has never found its peace

i will never go away, get it back, just get it back
i will never go away, get it back, just get it back
i will never go away, get it back, just get it back
just get it back

just want us to be
the most uplifting company
talk with friends all night
together we will feel alive

i will never go away, get it back, just get it back
i will never go away, get it back, just get it back
i will never go away, get it back, just get it back
just get it back
