"Needle On A Record"

Set me free as the needle hits the record
Set me free as the needle hits the record
Over and again, now you're my best friend
You're my best friend

Come with me as the needle hits the record
Come with me as the needle hits the record
Over and again, now you're my best friend
You're my best friend

Hold you close like the whole world depends on it
Hold you close, oh like the whole world depends on it
Over and again, now you're my best friend
You're my best friend
