There was just one at the top of a pile of one million  
And she hasn't got a clue that she's become  
A good samaritan  
I missed her name before i blink from the scene she'd  
run away  
If i got the chance to meet her once again  
What would i hear her say?  
It was just one of those things i needed to deal with  
It was just one of those things  
It was just one of those things i needed to deal with

There was just one at the top of a pile of one million  
And there's no way of counting all our loss  
What was i thinking of?  
As it kicks off i kept myself to myself and looked away  
Should've put my foot in but i just stayed  
Wrapped up in my own world

It was just one of those things i needed to deal with

It was just one of those things  
It was just one of those things i needed to deal with

There was just one at the top of a pile of one million  
And she will be there for many years to come  
Wondering where i am

It was just one of those things i needed to deal with  
It was just one of those things  
It was just one of those things that i should've dealt  
with  
It was just one of those things

(this was just one of those things i needed to deal with  
This was just one of those things  
This was just one of those things i needed to deal with  
This was just one of those things)

(this is just one of those things i needed to deal with  
This is just one of those things)
