Saw your eyes  
In the news  
Saw your tired face  
All your fear  
Blood and tears  
Couldn't buy your grace

What I feel down deep inside is just my darker side of  
life  
You can hide from yourself but you can't hide from me

A life for a life  
Want you to kill me, baby  
That's your only chance to survive  
A life for a life  
Can you hear the silence crying  
If I'm dead you stay alive

I see pain , killing fields , see your misery  
When you're left by yourself - hear the sirens cry  
I'm the part of the world responsible for your fate  
If I could do something for you I would

A life for a life  
I want you to kill me baby  
That's your only chance to survive  
A life for a life  
Can you hear the sirens crying  
If I'm dead you stay alive

A life for a life a life for a life  
A life for a life a life for a life  
If I'm dead you stay alive

A life for a life  
I want you to kill me baby...
