"Lost In Love"

Visit "[Lost In Love](#)" on MotoLyrics.com

Please, save my soul, I cry
Before my love does die
And such a feeling I have never had before
I will never ever love anyone at all

I know it's true
All dreams come true
How could an angel break my heart
Like you do?

Out of the blue
There is no angel of love
Without you

Let's find the starry sky
Before you say good bye
As light as a feather, I am flyin' high above
It ain't over till it's over, lost in love

I know it's true
All dreams come true
How could an angel break my heart
Like you do?

Out of the blue
There is no angel of love
Without you

I know it's true
All dreams come true
How could an angel break my heart
Like you do?

Out of the blue
There is no angel of love
Without you

There is no angel of love
Angel of love
Without you
