"Utopia"

Visit "[Utopia](#)" on MotoLyrics.com

I don't know, when I face my life
I look around and see, what's going on everyday
I can not stand, the hate and misery, it really knocks
me down
Tell me why we're saving the world of today?
Let our vision fly, don't know why, we don't wanna try...

Utopia - and I see the promised land
Utopia - the land of the free
Utopia - the fortune is in our hands
To turn around this way of life
Take my hand and fight!

I don't know, when I face my life
Live in a world of lies - live in a world of fire and ice
It seems to be, that our fate is sealed
And in the train of time, we're rushing through our life
Like the click, of the clock, moving, through our time
A vision will revive, see the signs - the time has arrived!

Utopia - and I see the promised land
Utopia - the land of the free
Utopia - the fortune is in our hands
To turn around this way of life
Take my hand and fight!

I close my eyes, here in Utopia
I realize, it's not afar...

Utopia! - and I see the promised land
Utopia! - the land of the free
Utopia! - the fortune is in our hands
To turn, around, this way, way of life!
