How did you find  
Peace in your mind  
Maybe someday i will find it for myself  
As the feeling gets too sweet  
Your so cold and indiscreet  
Soon it roll until someone rains on you  
Because the comfort in your eyes  
Is now covered by your lies  
Maybe thats just everything you need  
Your so innocent you  
You just cant be seen through  
Well maybe your just coming down like me

And you covered my eyes  
You covered my eyes x3  
How could it take me so long just to realise  
There must be a better way

And you'll say what you'll say  
To make me feeling ok  
How can some people take so long to cry  
And this distant culture  
Is not somewhat closer  
It builds you up then cuts you from its side  
So dont let me guide  
Your feelings inside  
It is all up to you to changes your ways  
But your making no sense  
With no guilty conscience  
It happens when the corrosive  
minds embrace

And you covered my eyes  
You covered my eyes x3  
How could it take me so long to realise  
There must be a better way

But you let me down x4

And you covered my eyes  
You covered my eyes x3  
My eyes

Well oh yeah said you know

Well i may be colour blind  
But i know whats in my mind  
You know the slightest touch will  
Burn your skin  
Burn your skin  
Without looking through their eyes  
You take away their lives  
You will come crashing down  
Crashing down  
When all you need is a place to hide  
Well isnt life just a game to play with
