Some things wrong with the atmosphere
And it's keeping me awake
Must be something in the air I hear
Pushing everything my way

Is this real, is this real

I wanna know, I wanna know
Take this pain and make it real
I wanna see, I wanna feel
What you feel

Waking up in the afternoon
And it's driving me insane
Give me something I can hold on to
Give me more than I can take

Is this real, is this real

I wanna know, I wanna know
Take this pain and make it real
I wanna see (I wanna) I wanna feel (I wanna feel)
What you feel

I'm waiting, I'm waiting
I'm waiting for whatever comes my way
Coz I'm feeling a thousand miles from home

Is this real, is this real
Is this real, is this real

I wanna know, I wanna know
Take this pain and make it real
I wanna see (I wanna) I wanna feel (I wanna feel)
What you feel

I wanna know, I wanna know
Take this pain and make it real
I wanna see (I wanna) I wanna feel (I wanna feel)
What you feel
