# Atomic Kitten
# "If You Come To Me"

So long ago, I didn't have a care about me
I didn't know my right from wrong
But now I know that you've got your love around me
You know it makes me feel so strong

Maybe if you turn around
And prove to me it's real
Maybe we can work it out
'Cos this is how I feel

Do you know when you go and you give it all away
I'll be there for you, care for you
Love you every day oh baby
And do you feel the same for me?

Any day you're away and I feel a little low
I will cry for you, die for you
Just to let you know, oh baby
And if you come to me, you know I'll make it right

Throughout my life, I never thought I'd have somebody
Someone to call my own
And now I've found, a little bit of Heaven baby
A place to call my home

Maybe if you turn around
And prove to me it's real
Maybe we can work it out
'Cos this is how I feel

Do you know when you go and you give it all away
I'll be there for you, care for you
Love you every day oh baby
And do you feel the same for me?

Any day you're away and I feel a little low
I will cry for you, die for you
Just to let you know, oh baby
And if you come to me, you know I'll make it right

Baby, don't you know you gotta slow down
Before you know you're gonna

Break down and turn around
Before you know, you go and break my heart

When will you learn to be a little helpful
When you think of me
A little careful when you're close to me
'Cos baby I loved you from the start
(Baby)

Maybe if you turn around
And prove to me it's real
(Yeah)
Maybe we can work it out
'Cos this is how I feel
(This is how I feel)
I love you, baby

Do you know when you go and you give it all away
(When you go)
I'll be there for you, care for you, love you every day oh
baby
(I would die, I would die)
And do you feel the same for me?
(I love you, baby)

Any day you're away and I feel a little low
(When you go)
I will cry for you, die for you
Just to let you know, oh baby
(I would die, I would die)
I love you, baby

Do you know when you go and you give it all away
(When you go)
I'll be there for you, care for you, love you every day oh
baby
(I would die, I would die)
And do you feel the same for me?
(I love you, baby)

Any day you're away and I feel a little low
(When you go)
I will cry for you, die for you
Just to let you know, oh baby
(I would die, I would die)
And if you come to me, you know I'll make it right
