Flash lights  
Moon grin  
Hot bodies grooving  
I knew there was love in the air  
Anticipation  
My heart is racing  
And yours coming out of cold there

If you wanna do it  
Make your move right  
If you want me baby  
Keep me in your sight  
Ain't no use in fighting  
Cos my mind's made up  
You get me so hot  
Don't you wanna

Dance to the music all night  
Party till the dawn when the sun comes up  
Here's to tonight and the moonlight  
Got me feeling hot in here  
Don't ever ever stop  
Dance to the music all night  
Party till the dawn when the sun comes up  
Here's to tonight and the moonlight  
You got me feeling hot in here  
Don't ever ever stop

Now I know I got you  
Exacly where I want you  
And all of your defences are down  
My body's craving  
Why the hell you waiting?  
My fantasies will unfold

If you wanna do this  
Do this now  
If you want me baby  
I can show you how  
Ain't no use in fighting  
Cos my mind's made up  
You get me so hot

Don't you wanna

Dance to the music all night  
Party till the dawn when the sun comes up  
Here's to tonight and the moonlight  
Got me feeling hot in here  
Don't ever ever stop  
Dance to the music all night  
Party till the dawn when the sun comes up  
Here's to tonight and the moonlight  
You got me feeling hot in here  
Don't ever ever stop

Take you where  
You've never been before  
(I wanna freak you down in all the right places)  
I wanna make you feel  
Like you never need no more  
(make you hotter than the one you ever tasted)  
Take you where  
You've never been before  
(I wanna freak you down in all the right places)  
Make you feel  
Like you never need no more  
(make you hotter than the one you ever tasted)

Dance to the music all night  
Party till the dawn when the sun comes up  
Here's to tonight and the moonlight  
Got me feeling hot in here  
Don't ever ever stop

Dance to the music all night  
Party till the dawn when the sun comes up  
Here's to tonight and the moonlight  
You got me feeling hot in here  
Don't ever ever stop

Dance to the music all night  
Party till the dawn when the sun comes up  
Here's to tonight and the moonlight  
You got me feeling hot in here  
Don't ever ever stop

Dance to the music all night  
Party till the dawn when the sun comes up  
Here's to tonight and the moonlight  
You got me feeling hot in here  
Don't ever ever stop
