[Chorus:]

Hang on 'til the break of dawn
We don't have tomorrow to carry on
Stay with me, and love me through the night
'Cuz we don't have another day to make it alright

Of all the times that we spent together
My mind is lost we're not meant for each other
And if I recall, correctly last fall
You told me that you'd love me forever.
And I thought I had what I wanted in life.
You said one day you'd be my wife.
Ya know and after all that has passed us by
The past 10 months were just a lie!

[Chorus]

When I would kiss you I thought it was a dream
It made so much sense, we were the perfect team
Where did it go wrong despite waiting so long
Is this how we really fit in the scheme?

[Chorus]

And I thought I had what I wanted in life.
You said one day you'd be my wife.
Ya know, and after all that has passed us by
The past 10 months were just a lie!

[Chorus 2x]
