So fuckin' blow those words out the back of your head
I've heard it all and I'm done with that shit
You tell me lies and you get what you get
So blow those fuckin' words out the back of your head

Oh my God, did you just hear
Lies are comin' back in style?
Oh my God, this seems so real
That they find you and confine you

Shut your mouth, we've heard it all
Hypocrite's and critics all
Can fuck off, we do this for our souls
For our souls

What they say won't make us go away

So fuckin' blow those words out the back of your head
I've heard it all and I'm done with that shit
You tell me lies and you get what you get
So blow those fuckin' words out the back of your head

We're not sorry and we won't conform
It's not our choice but somethin' inborn
If we fail followin' our hearts
Can you blame us? No, no, no

A swept bag in our black home
We don't fit in, that's the way it goes
You should've not thought you're better than us
'Cause you're not, no, no, no

What they say won't make us go away

So fuckin' blow those words out the back of your head

I've heard it all and I'm done with that shit
You tell me lies and you get what you get
So blow those fuckin' words out the back of your head

So fuckin' blow those words out the back of your head
I've heard it all and I'm done with that shit

You tell me lies and you get what you get
So blow those fuckin' words out the back of your head
Blow, blow, blow those fuckin' words out the back of
your head

Tell yourself you're not alone at all
Lookin' out your window, know you're all alone
Oh, tell yourself you're not alone at all
Lookin' out your window, know you're all alone

What they say won't make us go away
Go away, go away, go away

So fuckin' blow those words out the back of your head
I've heard it all and I'm done with that shit
You tell me lies and you get what you get
So blow those fuckin' words out the back of your head

So fuckin' blow those words out the back of your head
I've heard it all and I'm done with that shit
You tell me lies and you get what you get
So blow those fuckin' words out the back of your head
Blow, blow, blow those fuckin' words out the back of
your head
Of your head, of your head, of your head, yeah
