I live, I stalk, I hunt, I eat
With indifference for all
I walk, I kill, I sleep, I breed
Slowly taking control

The sickest part of our species
Ravenous to evolve
We spread like a fucking disease
No vaccine protocol

And at the end of days
This will be our legacy

We kill, kill, multiply
Until the skies are black and the rivers dry
Take, take, we take our time
We leave no one else behind

Kill, kill and deny
Until the skies are black and the rivers dry
Take, take, we take our time
We leave nothing else behind

I don't feel anything at all
As rats gnaw at my bones
I'm not made of the same things at all
A mechanical heart

The sickest part of our species
Ravenous to evolve
We spread like a fucking disease
No vaccine protocol

And at the end of days
This will be our legacy

We kill, kill, multiply
Until the skies are black and the rivers dry
Take, take, we take our time
We leave no one else behind

Kill, kill and deny
Until the skies are black and the rivers dry
Take, take, we take our time
We leave nothing else behind

You cannot stop what never ends
You cannot stop what never ends
You cannot stop what never ends
You cannot stop what never ends

And at the end of days
This will be my legacy

We kill, kill, multiply
Until the skies are black and the rivers dry
Take, take, we take our time
We leave no one else behind

Kill, kill and deny
Until the skies are black and the rivers dry
Take, take, we take our time
We leave nothing else behind
