I feel eyelashes on my cheek
They lacerate my flesh,
A pain so good.
So put your hand in mine, never let go,
Never wake up, cause I'm done with promises
I'm taking blood oaths.
Feels like you could kiss
My imperfections, my imperfections away.
And I would stand, stand by your side
Until the sun turns the sky
All the colors I see in your eyes.

And I'll never need to see the sun again,
there's enough light in your eyes to light up our little
world.
So take me, take me away.
Kill me slowly, I'll never be the same.

And I swear to you, on everything I am,
And I dedicate to you all that I have
And I promise you that I'll stand right by your side
Forever and always until the day I die.
The bite marks on my neck never felt so good.
I'm losing control
And it's all that I can do not to blackout
Fall into lust with you.
Your kisses infect me.
The dark gift is loving you,

And I'll never need to see the sun again,
there's enough light in your eyes to light up our little
world.
So take me, take me away.
Kill me slowly, I'll never be the same.

And I feel immortal
And I want to make you feel the same.
So stand by me as we immolate.
We can burn in each others arms.
And I feel immortal
And I want to make you feel the same.
So stand by me as we immolate.

We can burn in each others arms.
