I feel eyelashes on my cheek
They lacerate my flesh, a pain so good
So put your hand in mine, never let go
Never wake up, 'cause I'm done with promises

I'm taking blood oaths, feels like you could kiss
My imperfections, my imperfections away
And I would stand, I stand by your side
Until the sun turns the sky, all the colors I see in your
eyes

And I'll never need to see the sun again
There's enough light in your eyes to light up our little
world
So take me, take me away
Kill me slowly, I'll never be the same

And I swear to you on everything I am
And I dedicate to you all that I have
And I promise you that I'll stand right by your side
Forever and always, until the day I die

The bite marks on my neck never felt so good
I'm losing control and it's all that I can do
Not to blackout, fall into lust with you
Your kisses infect me, dark gift is loving you

And I'll never need to see the sun again
There's enough light in your eyes to light up our little
world
So take me, take me away
Kill me slowly, I'll never be the same

And I feel immortal
And I want to make you feel the same
So stand by me as we immolate
We can burn in each other's arms

And I feel immortal
And I want to make you feel the same
So stand by me as we immolate
We can burn in each other's arms
