It started with a kiss and turned out something else,
The blood coils in through my veins, I think of no one
else.

I never believed in much, but I believe in this.
I'm incomplete without you, I'd kill to taste your kiss.

I'm lost and lonely,
Scared and hiding,
Blind without you.

When the the world comes crashing down and the
skies begin to fall,
I'll wait for you.

When the days grow old and long and my skin turns
into stone,
I'll wait for you.

When the pain it seems too much,
And my heart starts beating out of touch, I don't need a
thing,
I'll wait for you.

It's all so different now, emotions burn me out.
I have a lifeless touch, this distance leaves no doubt.
I fear it all too much but part of me believes,
As the years pass away you made me recognize-

I'm lost and lonely,
Scared and hiding,
Blind without you.

When the the world comes crashing down and the
skies begin to fall,
I'll wait for you.

When the days grow old and long and my skin turns
into stone,
I'll wait for you.

When the pain it seems too much,
And my heart starts beating out of touch, I don't need a
thing,
Cause I'll wait for you...

Yeah...

Cause I'll wait for you...

When the the world comes crashing down and the
skies begin to fall,
I'll wait for you.
When the days grow old and long and my skin turns
into stone,
I'll wait for you.
When the pain it seems too much,
And my heart starts beating out of touch, I don't need a
thing,
I know I don't need a thing,
I'll wait for you.
