Sparrow calling me
Up high from the tallest tree
Sparrow calling
Wings to spread me though the seas

Take my side away
Setting suns won't take away
Rays so bright i'm blind.
Wasting all my time.

Sparrow calling me
up high from the tallest tree
Sparrow calling
Wings to spread me though the seas.

Send my touch a straight
Drifting farther from my fairest day
healing hands are far
can i readh that far

Sparrow calling me
up high from the tallest tree
Sparrow calling
Wings to spread me though the seas
