I wish it didn't hurt, hurt like this
To say these things to you

I'll sacrifice one moment for one truth

If we get through tomorrow then we'll be fine
We'll wait forever and see how close we get

It's just another day, one more chance
To get this right
I'll sacrifice forever please just for tonight

If we get through tomorrow then we'll be fine
We'll wait forever and see how close we get

Outro (x3)
The worst is over for now
Take a breath now let it out
