The world that we had never  
Seen before became our huge desire  
They've choked up our heads  
With different rubbish  
Darkness has changed day light  
And the way to survive

Awaken the Sun, Awaken the Sun  
Awaken the Sun, Awaken the Sun inside of us

Sickness has taken our souls  
We just wanted to get into the new world  
There was a light that everyone had seen  
Exept me, darkness has changed day light  
And the way to survive

Awaken the Sun, Awaken the Sun  
Awaken the Sun, Awaken the Sun inside of us

The world that we had never seen behore  
Became our huge desire  
They've choked up our heads, with different rubbish  
The world that we had never seen behore  
Became our huge desire  
They've choked up our heads, with different rubbish

Awaken the Sun, awaken the Sun, awaken the Sun,  
awaken the Sun
