"Blind Sheep"

Visit "Blind Sheep" on MotoLyrics.com

I, I have died, this time is
A nightmare for a really fair
Man, we all doomed, to hell
And we are getting there as fast as we can
Gates already opened for us

Once again I ask myself why it's happened to us
Were we so credulous, or were we just blind
Our greediness leads all of us to hell
We're destroying everything

I, I was right, this world
Became huge unchangeable store
We're all jailed, we can't fight
And we are getting killed if do something wrong
We're just a part of mechanism

Once again I ask myself why it happened to us
Were we so credulous, or were we just blind
Our greediness leads all of us to hell
We've destroyed everything
