Give in to your temptations, stop worrying about what's
wrong or right

Pick up the conversation from the last point that we left
off

You always have your way with me

Pick up the conversation from the last point that we left
off

You always have your way with my mind, seducing
thoughts control me all of the time

All of these thoughts are combining and I'm
contemplating my next big move

What will you do if these feelings persist? Give in, this
urge you cannot resist

All of these thoughts are combining and I'm
contemplating my next big move

What will you do if these feelings persist? Give in, this
urge you cannot resist

Look at me now. Sit in with me as I have a chit-chat with
the devil upon my shoulder

Who thought it ever would come to this

Everyones got a secret to tell, so tell me something
dirty

Tell me something that I'm gonna like

Were losing time- so are you

Don't let useless emotions inflict you in your daily life
I've got a feeling that there's more where that came

from

And I'm hoping I can get some more of you

Breathe all youve got into my soul, I want it all or
nothing at all

Don't hold back, accept this invitation

I don't need any words or explanation

Me and you possess a love that could break the mold

When were together we can overcome the world

So please accept this invitation

I don't need any words or explanation

Me and you possess a love that could break the mold

When were together we can overcome the world

Bounce

Is anybody even listening?

No
