The way things should be  
Became all that I could see  
But I could've never imagined that kiss  
Love is this

And now what we know  
Shows us what we've always known

I want to know you and hold you always  
Won't you stay  
The longer I was left alone  
Helped me to find my sense of home  
And missing your familiar ways  
At night, I memorized your face  
We've spent a long time waiting for  
The chance to say  
We are here  
We are here

I found it unexpectedly  
The luck that you should notice me  
But wanting makes it hard to find  
Differences between wrong and right  
We've spent a long time waiting for  
The chance to say  
We are here  
We are here  
We are here  
We are here  
We are here  
We are here
