

## Audacious

### "Losing Control"

Visit "[Losing Control](#)" on MotoLyrics.com

This is what it feels like  
To lose control  
This is what it feels like  
To be left alone  
This is what it feels like  
To lose a friend  
This is what it feels like  
To reach the end

God came down  
And walked beside me  
God came down  
He sent friends to guide me  
God came down to remind me  
This is what it feels like  
To be loved

This is what it feels like  
To face the truth  
This is what it feels like  
To know it's through  
This is what it feels like  
To say goodbye  
This is what it feels like  
For a man to cry
