Verse:

Rising up the sound of your people
Be lifted up in a shout of praise
You're the one who broke the darkness
Every nation run into your light

Pre-Chorus:

We're gonna lift you higher
We're gonna lift you higher
We're gonna lift you higher
We're gonna lift you up

Chorus:

My life, on fire
I'm gonna shine for the world to see
My one desire
To see your power at work in me
Never gonna let fear take hold of me
Never gonna let fear take hold of me
'Cos we are free

Bridge:

Never gonna let fear take hold of me
I'm gonna lift you higher
Never gonna let fear take hold of me
I'm gonna lift you higher
