Crawling slowly into life  
Rotten teeth, smiling faces  
Guided by commanding light  
Guided well to mental hell

[Chorus:]  
Constructed love injected  
Licking their frozen guts  
Again and again  
No vision, no life  
A ghost of it I am  
Living among humans

Still crawling through broken glass  
Chewing nails from a dead man  
Sperm-vomiting virginity  
Crucified fucking whore

[Repeat chorus]

Prison, walls of iron  
Rats eating human hair  
Chainsaw, raping enemies  
Stench of my disgusting perfection

Electric brain, mirror-like eyes  
Fiction-blood always pumping  
Surviving filth machines  
Finally we crucified death

Constructed love injected  
Licking their frozen guts  
Again and again  
No vision, no life  
A ghost of it I am  
LIVING AMONG HUMANS  
DYING AMONG WORMS
