I will force you to kill your brother  
I'll ruin your sense of love  
You'll never see smiles again  
Never feel comfort in lie

The losers you see in your friends  
The mirrors barely alive  
That join forces  
To make lower levels of life

Cause I'm your new god  
You sold your soul to me  
Your hour in heaven is over  
Your lifetime in hell is to come

[Chorus:]  
The dealers provide you my soul  
You pay for my visit with time  
I smile at you when we're together  
And laugh at you when you're gone

I love to see you struggle  
You parasite of the streets  
Modern leper of decay  
I laugh as I weed out the weak!

[Chorus]

Death camouflaged as freedom  
To much is the way it will be  
When I rule you through that needle  
You know I destroyed you indeed!
