Go around and tell all the neighbors  
Go around and tell everyone  
There's a storm that's coming for her  
This type of rain will make her fall in love  
This girl's so contra sending  
Mysterious but beautiful  
So go around and tell all the neighbors  
I'm gonna grab her hard and won't let go

I've never wanted you so much as I do right now  
I can't believe this is happening to me,

HEY!

Make it rain,  
Flood the streets if only for today,

HEY!

Make it rain,  
I need you, I want you more,  
I just can't help it baby only just tonight,

HEY!

Make it rain

Her favorite place to dance is outside  
Especially when the stars arise  
So that's exactly where I'm heading  
She's beautiful under night skies  
I've been waiting for this weather  
Come rain, come shine she's mine

Go around and tell all the neighbors,  
The storm is coming, better get inside,  
I've never wanted you so much as I do right now  
I can't believe this is happening to me,

HEY!

Make it rain,

Flood the streets if only for today,

HEY!

Make it rain,  
I need you, I want you more,  
I just can't help it baby only just tonight.

HEY!

Make it rain

YEAH!

My eyes will be locked on you,  
I'm moving in for the kill,  
So sit still,

YEAH!

I want your eyes locked on me  
You will be loving me until the morning..

HEY!

Make it rain,  
Flood the streets if only for today

HEY!

Make it rain,  
I need you, I want you more,  
I just can't help it baby only just tonight

HEY!

Make it rain.
