Pissing my time away, but maybe I like it that way
When its all said and done
I'll regret never having any fun
So maybe you should look around for someone new
and think about what your gonna do, cause I think...
I'm sorry that I never said any of the things you wanna
hear
I try to make it up to you, but then I end up fucking that
up too
So maybe you should look around for someone new
and think about what your gonna do, cause I think
Maybe you'd be better off with out me
Maybe I'd be better off with out anyone
