

August Premier "Next Time, This Summer"

Visit "[Next Time, This Summer](#)" on MotoLyrics.com

And now we're counting down the days
Until we all find something new
Until we all find something to keep us occupied while
we're awake
On this 4th of July we'll read the writing on the sidewalk
And remember all the days we spent outside
Wasting all our time
I'm not asking for anything
I don't want it to end this way
I hope this summer lasts forever.. yeah
And we've been here all night
And now the sun is coming up
I hope it wakes you up
So you can see what happened here last night
But don't you worry
It's our little secret
Our summer secret
Between you and me and the bottle
I'm not asking for anything
I don't want it to end this way
I hope this summer lasts forever
And watch the sky light up at night
So let's pour a drink and we'll have a good time
Cause it's just you and me
I hope this summer lasts forever
I'm not asking for anything
I don't want it to end this way
I hope this summer lasts forever
And watch the sky light up at night
So let's pour a drink and we'll have a good time
Cause it's just you and me
I hope this summer lasts forever
