Oh yeah  
this one feels good

I guess you could call me an addict  
'cause I can't get enough for you  
I guess your mind girl heavy  
'cause baby I'm stuck like glue  
I can't even function even if I try some other ones  
it just wouldn't be the same that I'm sure

Pre Chorus:

When I'm gone I'll be on this  
I feel withdraws oh I promise  
so make no mistake I'm thinking bout you every single  
day  
I'm away, oh I wish I could stay 'cause when I'm with  
you

Chorus:

I'm high, high, high, so high  
I'm high, high, high, so high  
and there's nothing better  
then be enough above the clouds  
feeling so touch like wow  
you make me high, high, high  
and then you're call I'm crashing down down down  
down  
when you're gone I'm crashing down down down down

I'm calling like 24 7 'cause I am making that sweet  
your voice feels like heaven when I can get me a fix  
too much to handle, nobody is holding a candle to the  
way you light up hey  
you got me all fought up just sing it about it

Pre Chorus:

When I'm gone I'll be on this  
I feel withdraws oh I promise  
so make no mistake I'm thinking bout you every single  
day  
I'm away, oh I wish I could stay 'cause when I'm with

you

Chorus:

I'm high, high, high, so high  
I'm high, high, high, so high  
and there's nothing better  
then be enough above the clouds  
feeling so touch like wow  
you make me high, high, high  
and then you're call I'm crashing down down down  
down  
when you're gone I'm crashing down down down down

Oh I'm thinking bout, thinking bout you, I'm high  
rubbing up and down your hands on my spion  
oh wanna lay right there, I don't wanna go nowhere  
you got me like do I do I didiridam diridei  
the way you do me there is no words to say hey  
need you here with me 'cause when I'm with you

[Chorus:]

when you're gone I'm crashing down down down down  
when you're gone I'm crashing down down down down  
Ohh  
rock with me hey hey  
come on come on girl  
rock with me hey hey  
come on, come on girl  
rock with me hey hey  
come on, come on girl  
come on rock with me hey hey hey
