When I drift away Often to that place
No one can find me here!
I fall into your arms, captive to your charm
No chance to find me!
When I'm lying right besides you

All the things I wished that I knew
Is this forever, ever?
I'd rather live in a lie
Don't make me open my eyes, my eyes!

Chorus:
Don't wake me up till it's over
Not till it's over
My beautiful dream,
I don't wanna leave!
Not till it's over
No, not till it's over
We can't kill it now
Please, don't make a sound!

Watching through a glass as the visions pass
This is so bitter sweet!
Close within your reach, there's no need to speak
This where I should be, uh!

I'm lying right beside you
Follow things I wish that I knew
Is this forever, ever?
I'd rather live in a lie
Don't make me open my eyes, my eyes!

Chorus:
Don't wake me up till it's over
Not till it's over
My beautiful dream,
I don't wanna leave!
Not till it's over
No, not till it's over
We can't kill it now
Please, don't make a sound!

Above all the clouds floating away
Will I ever come down?
And it's perfect this way
I wanna stay with you!

Chorus: (x2)
Don't wake me up till it's over
Not till it's over
My beautiful dream,
I don't wanna leave!
Not till it's over
No, not till it's over
We can't kill it now
Please, don't make a sound!

Till it's over, till it's over
Till it's over, oh, oh!
