Keep on, pulling away live for today  
The world will change tomorrow  
Turn it around, you know the sound  
Of dreams that end in sorrow  
Scared to fail  
But failure is what we've got to learn from  
So don't be afraid  
Because I will...

I will catch you when you fall  
Say the words and I'll come running  
Like I said I would  
So you don't hit the ground  
So don't be afraid  
Because I won't let you down  
I won't let you down

Lately there's too many questions  
You can't seem to find the truth  
So I'm gonna show you all the things we need to do  
It's not so complicated  
Sometimes you think you'll never make it out  
Out of here  
But I will

Don't let go  
Of passion and who we are  
Take Control  
Of everything you want to be  
We're building on something  
And I know that I will

I will catch you when you fall  
Say the words and I'll come running  
Like I said I would  
So you don't hit the ground  
So don't be afraid  
Because I won't let you down  
I won't let you down  
(Keep on going right on through  
Don't even worry  
What they say about you

It's not so hard  
To keep your head held high)
