I just got over the break up drama
Tell me all the things you wanna
Do to me
So I can forget the way she used to be
I'm running my fingers through your hair
I'm telling myself that I don't care
I know I'm on the rebound and you were right there
I never tried to pretend to be what you were looking for
I just needed a one hit wonder but I know you want
more
But right now
I can feel you next to me

And you're trembling in my arms
I know you're scared and I begin to feel guilty
Because this really doesn't mean that much to me
But it sure as hell means a lot to you

I just need to gain a little perspective
Of everything that I've been going through
Something about the way things change direction
Every time I picture her instead of you
I keep on getting caught up in the moment
From the emotion that you're showing
I know I need to pay attention
Just needed a little comfort
Though maybe this was something
I could just forget about tomorrow
But right now
I can feel you next to me

I'm tired of going back and forth
Lay down let's just do our thing
Just lay down
Don't be afraid
I will give you what you need
It's not so hard
I don't need to complicate
The things inside my head
Now baby, no no
You can have me tonight
And you're trembling in my arms

And I know you're scared, but I'm tired of feeling guilty
