And I've fallen on my knees
I'm begging for you please don't let
Me go how could you just leave me here alone
How could you do this to me
(Its not easy to leave you here but
I must do what I have to do)

And she said it's all over
(I didn't mean 2 say)
And she said goodbye (goodbye)
Now I'll drown myself and never
(Please don't do this to me)
Wake up, screaming that I still
(It breaks my heart in 2)

Take a look at me now I'm broken inside
When are you coming back
(I'm never coming back)
It would be nice if you would come home to me
(Just try to let me go)

And she said it's all over
(I didn't mean 2 say)
And she said goodbye (goodbye)
Now I'll drown myself and never
(Please don't do this to me)
Wake up, screaming that I still
(It breaks my heart in 2)

[Instrumental]

And she said it's all over
(I didn't mean 2 say)
And she said goodbye (goodbye)
Now I'll drown myself and never
(Please don't do this to me)
Wake up, screaming that I still
(It breaks my heart in 2)
I love you still
