A little gurl growing up
Needs some more attention
A little boy growing up
Needs some more rock and roll

Fly away on the highway now
Speed the gear before you change your mind
And turn on the radio
To hear kurt cobain rocking up the station yea

If this the way you want
Chocolate fish i'll show you everything..

* gonna be there with you
forever we will be
gonna be there with you
forever we will be
yea...

A teenage gurl with a movie star
Drying up in conversation
A skater boy with tattoo arms
Breaking down another rule

Hide away on your wedding day
And leave someone to take your place
Rage up the town and get some recognition
yea

If this the way you want
Chocolate fish i'll give you everything
(Repeat *)

Safety streets turning like a desert hot
Time getting longer day and night
Watching all the ground you drop
This chocolate fish yea..
yea.. yea..
(Repeat * twice)
