You ever had a day  
When you're on such a spiritual high  
When you're feeling strong  
'Cause you've got all of heaven on your side

Ever had a day  
When your confidence is high  
And you feel like nothing can make you fall  
Or even compromise

But what about those days  
When you're not feeling so strong  
And you cry 'cause you don't know what to do  
Thinking that you're all alone

And what about those times  
When so much is on your mind  
And everything you've tried to forget  
You just can't seem to leave behind

Don't you wish that every day was an easy day  
And there was nothing that you couldn't do  
But if every day was an easy day  
You'd never be able to say that Jesus brought you  
through

You ever had a day  
When tomorrow didn't count  
'Cause you were caught up in the moment  
On cloud nine without a doubt

You ever had a day  
When you knew yesterday was gone  
And there was nothing that even mattered  
'Cause you already knew you won

But what about those days  
When you just don't understand  
And just when you're getting up  
It seems you're falling down again

What about those times

When it's not so easy to believe  
When doubt causes you to only  
Go by what you see

Don't you wish that every day was an easy day  
And there was nothing that you couldn't do  
But if every day was an easy day  
You'd never be able to say that Jesus brought you  
through

Only if every day was an easy day  
If every day was an easy day

Don't you wish that every day was an easy day  
And there was nothing that you couldn't do  
But if every day was an easy day  
You'd never be able to say that Jesus brought you  
through

If every day was an easy day  
This is the day that the Lord has made  
And I will rejoice and be glad in it  
Said this is the day that the Lord has made  
And I will rejoice and be glad in it

What about them days?  
What about them days?  
What about them days?  
You gotta go through something  
If you wanna get somewhere
